2002	58,254	46,748	152	105,154				32.1

All induced abortions are classified as “therapeutic” whether they are performed in a hospital or in a clinic. As of 1995, therapeutic abortion data are collected from reporting areas within and outside the country by the Canadian Institute for Health Information (CIHI). The data is then transferred to Statistics Canada for analysis and publication. The data is available on Statistics Canada website www.statscan.ca
